BUEAB

MARKET & POSITION

SIGNIFICANT FOR A- AND B-PARTS

- High value parts
- Internal R&D know-how
- Core business
- Limited number of suppliers

Direct cost 80%	Indirect cost 20%
--------------------	----------------------

SIGNIFICANT FOR C-PARTS

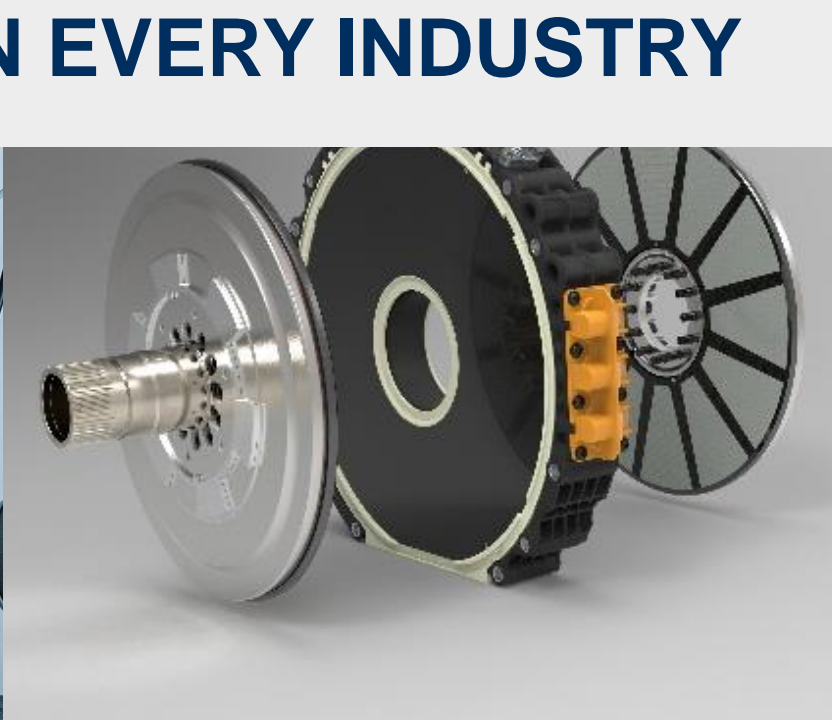

- Low value parts
- High procurement costs to the value
- Big risk
- Lack of internal knowledge
- Too many suppliers
- Increased complexity and regulations to deal with

Direct cost 20%	Indirect cost 80%
--------------------	----------------------

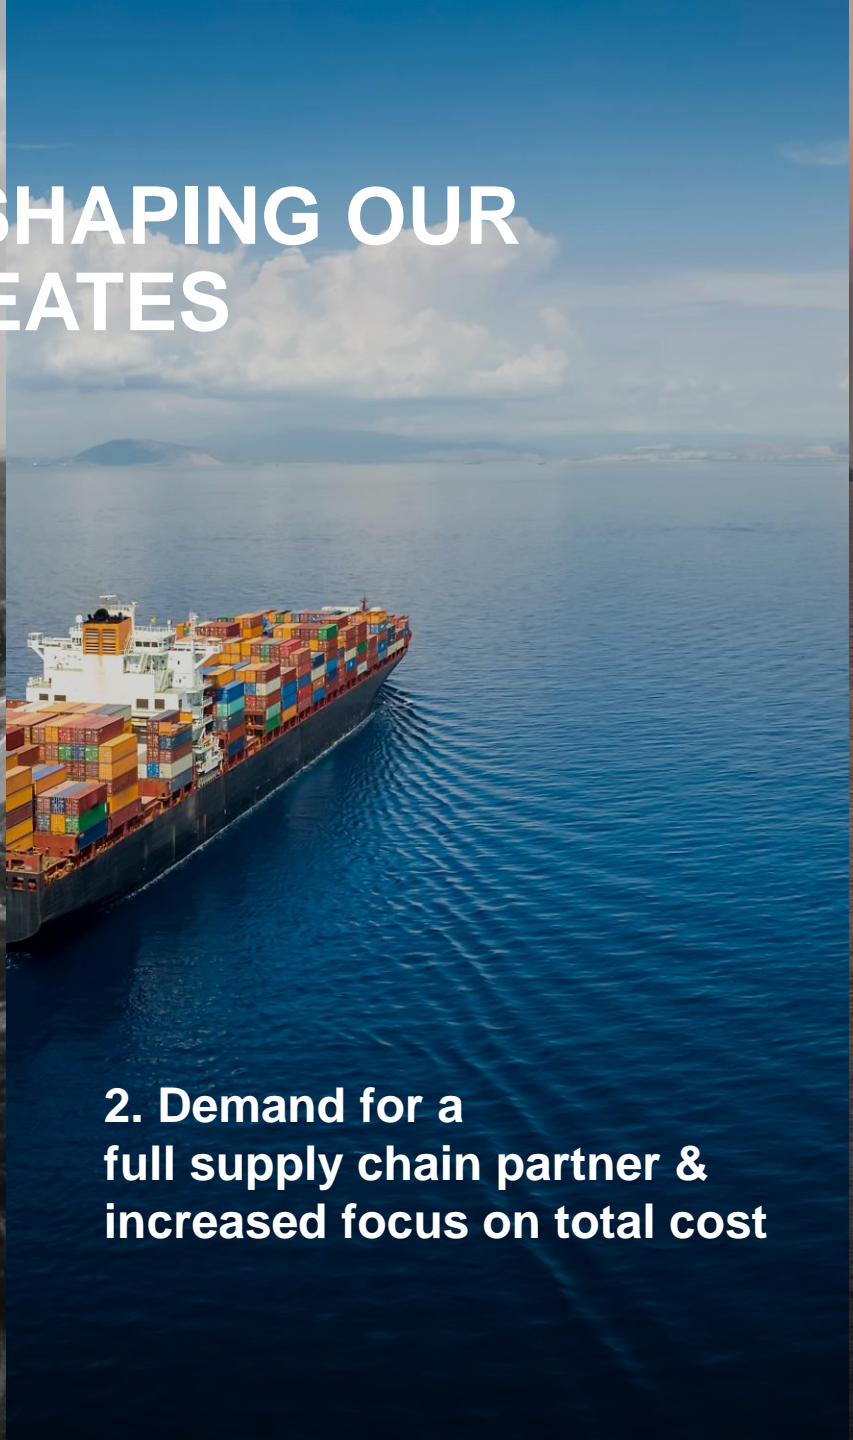

**C-PARTS ARE PRESENT
IN EVERY INDUSTRY**

MEGA TRENDS SHAPING OUR INDUSTRY & CREATES OPPORTUNITIES

An aerial photograph of a winding asphalt road that curves through a dense, dark green forest. The road is flanked by trees and vegetation, and the perspective shows it receding into the distance.

**1. The C-parts market
continues to grow,
change, and expand**

A large container ship, heavily loaded with colorful shipping containers in shades of red, yellow, blue, and green, is sailing on a deep blue ocean. The ship is viewed from an elevated angle, and its wake is visible in the water. In the background, there are distant landmasses under a clear sky.

**2. Demand for a
full supply chain partner &
increased focus on total cost**

A photograph of offshore wind turbines in the ocean at sunset. The sky is a mix of orange, pink, and blue, with a few clouds. The water is a dark, calm blue. Two wind turbines are visible, with the one in the foreground being more prominent and closer to the viewer.

**3. Demand for
sustainability**

1. THE C-PARTS MARKET CONTINUES TO GROW, CHANGE, AND EXPAND

Market around C-parts is growing and still fragmented

Our competitors are most of the times local players

As Bufab continues to grow, our market share may decrease as our addressable market expands

Major opportunity: Drive the consolidation, reaching new markets, segments and new customers

2. DEMAND FOR A FULL SUPPLY CHAIN PARTNER

Global trend for
industrial companies to
reduce complexity of
own
supplier base

Data and insights leads
to increased focus on
Total cost

Few players meet up
with customer demand
on global presence,
offering, supplier base
and regulations

Only handful players
with global scope and
ambition

2. MACRO FACTORS ACCELERATE THE CONSOLIDATION

Supply chain constraints and near-sourcing accelerates the trend

Trade wars and barriers

Financial turbulence, inflation and focus on cost drives change

3. DEMAND FOR SUSTAINABILITY

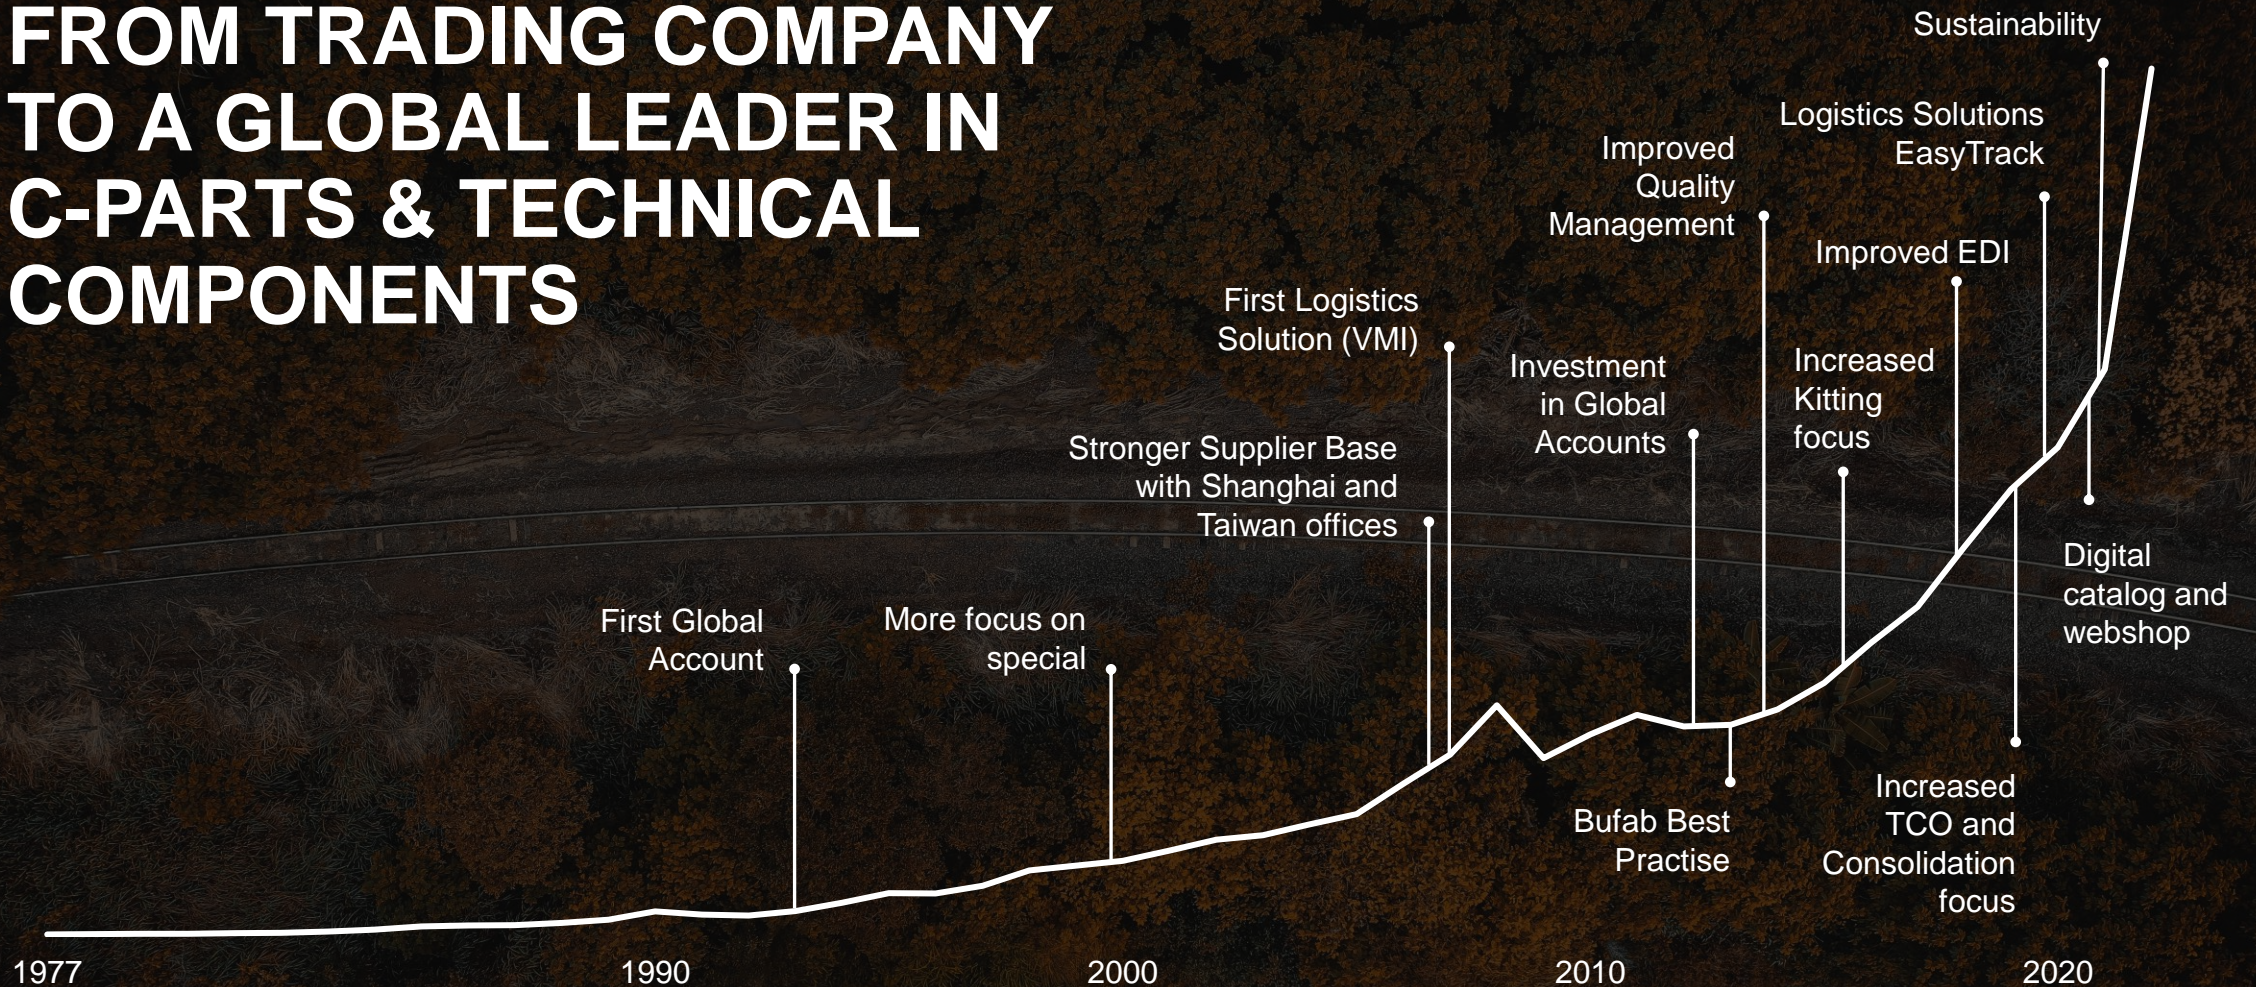

Regulatory Compliance
and Reporting

Supply Chain Transparency

Renewable Energy Adoption

How we create value beyond c-parts

FROM TRADING COMPANY TO A GLOBAL LEADER IN C-PARTS & TECHNICAL COMPONENTS

BUEAB

VALUE CREATION FOR A BUFAB CUSTOMER

STARTING POINT

- 1000 C-parts and 30 suppliers
- Quality and delivery issues
- Inventory and Logistics costs
- Target on Sustainability
- No logistics solutions in place
- In-house purchasing and quality control
- 15 FTEs involved

Total cost: ~**20** MSEK
 Direct cost: 4 MSEK
 Indirect cost: 16 MSEK

YEAR 1 – We enters

- Bufab takes care of 500 parts and phases out 10 suppliers to 20
- Secured quality and deliveries.
- Sustainability reporting from Bufab
- Reduced in-house purchasing and quality control
- 12 FTEs involved

Total cost: ~**17** MSEK
 Direct cost: 3,8 MSEK
 Indirect cost: 13,6 MSEK

Total Saving: ~ 3MSEK (15%)

YEAR 2 – Value added

- Bufab takes care of 750 parts and phases out 10 suppliers to 10
- Sustainability reporting and proactive support from Bufab
- Easy Logistics Solution and VMI. 50% inventory and space reduction.
- Engineering support. Start with complex and kitted parts.
- 8 FTEs involved

Total cost: ~**16** MSEK
 Direct cost: 3,6 MSEK
 Indirect cost: 12,8 MSEK

Additional Saving: ~5%

YEAR 3 – Expansion

- Bufab takes care of 1000 parts and phases out 10 suppliers to 3
- Bufab is the **trusted advisor** for sourcing, supply chain, engineering, and sustainability.
- Possibility for the customer to focus on core business.
- Bufab starts to supply factory A and B. New potential of 10 MSEK
- 6 internal FTEs involved

Total cost: ~**15** MSEK
 Direct cost: 3 MSEK
 Indirect cost: 12 MSEK

Total Saving: ~5MSEK

Discovering the next solution

Building on our success

OUR STRATEGY FOR PROFITABLE GROWTH

CUSTOMER VALUE CREATION

CUSTOMER VALUE CREATION

American Bolt & Screws

MD Cynthia Alvarez

- Trading Company
- ~ 800 MSEK in turnover, EBITA: 15-20%
- Role model in pricing, product- and customer mix development

Bufab Ireland

MD Kevin Donnelly

- Trading company
- ~ 100MSEK, EBITA: 15-20%
- Strong financial development – from loss-making with negative cash flow to a sales CAGR 2019-2023 of 28% and EBITA well over 15%

BUEFAB
Ireland

Bumax

MD Lars Holm

- Niche Company
- ~ 300 MSEK, EBITA: 25-30%
- Major untapped potential – new governance structure in place to enhance growth

BUMAX®

American Bolt and Screws, Cynthia Alvarez

ACCELERATING EFFICIENCY

Johan Lindqvist
Vice CEO, Director Segment North

ACCELERATING EFFICIENCY – EXAMPLE NWC

SISTER COMPANY FOCUS

- 3-year NWC plan in each company
- Majority of our companies will decrease their NWC but some increase
- Main driver is inventory

SYNERGIES & SUPPORT

- Best practice & knowledge sharing
- Shared benchmark

KEY METRICS

- Company level: 3-year plan with NWC-target per company
- NS growth, EBITA and Profit / NWC

NWC DEVELOPMENT

- Historically between 40-45% except pandemic
- More or less back to normal level
- But Bufab level is not best in class
- Before pandemic growth was our focus, not NWC

NWC% in relation to Net sales, 2014-2023

M&A DRIVE THE MARKET CONSOLIDATION

Johan Sandberg
Director Global Business Development

ACQUISITIONS HAVE CONTRIBUTED STRONGLY TO GROWTH

Net sales (MSEK)

WE LOOK FOR

- Well-run companies
- ...with growth synergies
- ...and win-win deals
- Sharing Bufab values and culture
- Actively support Group diversification and risk mitigation

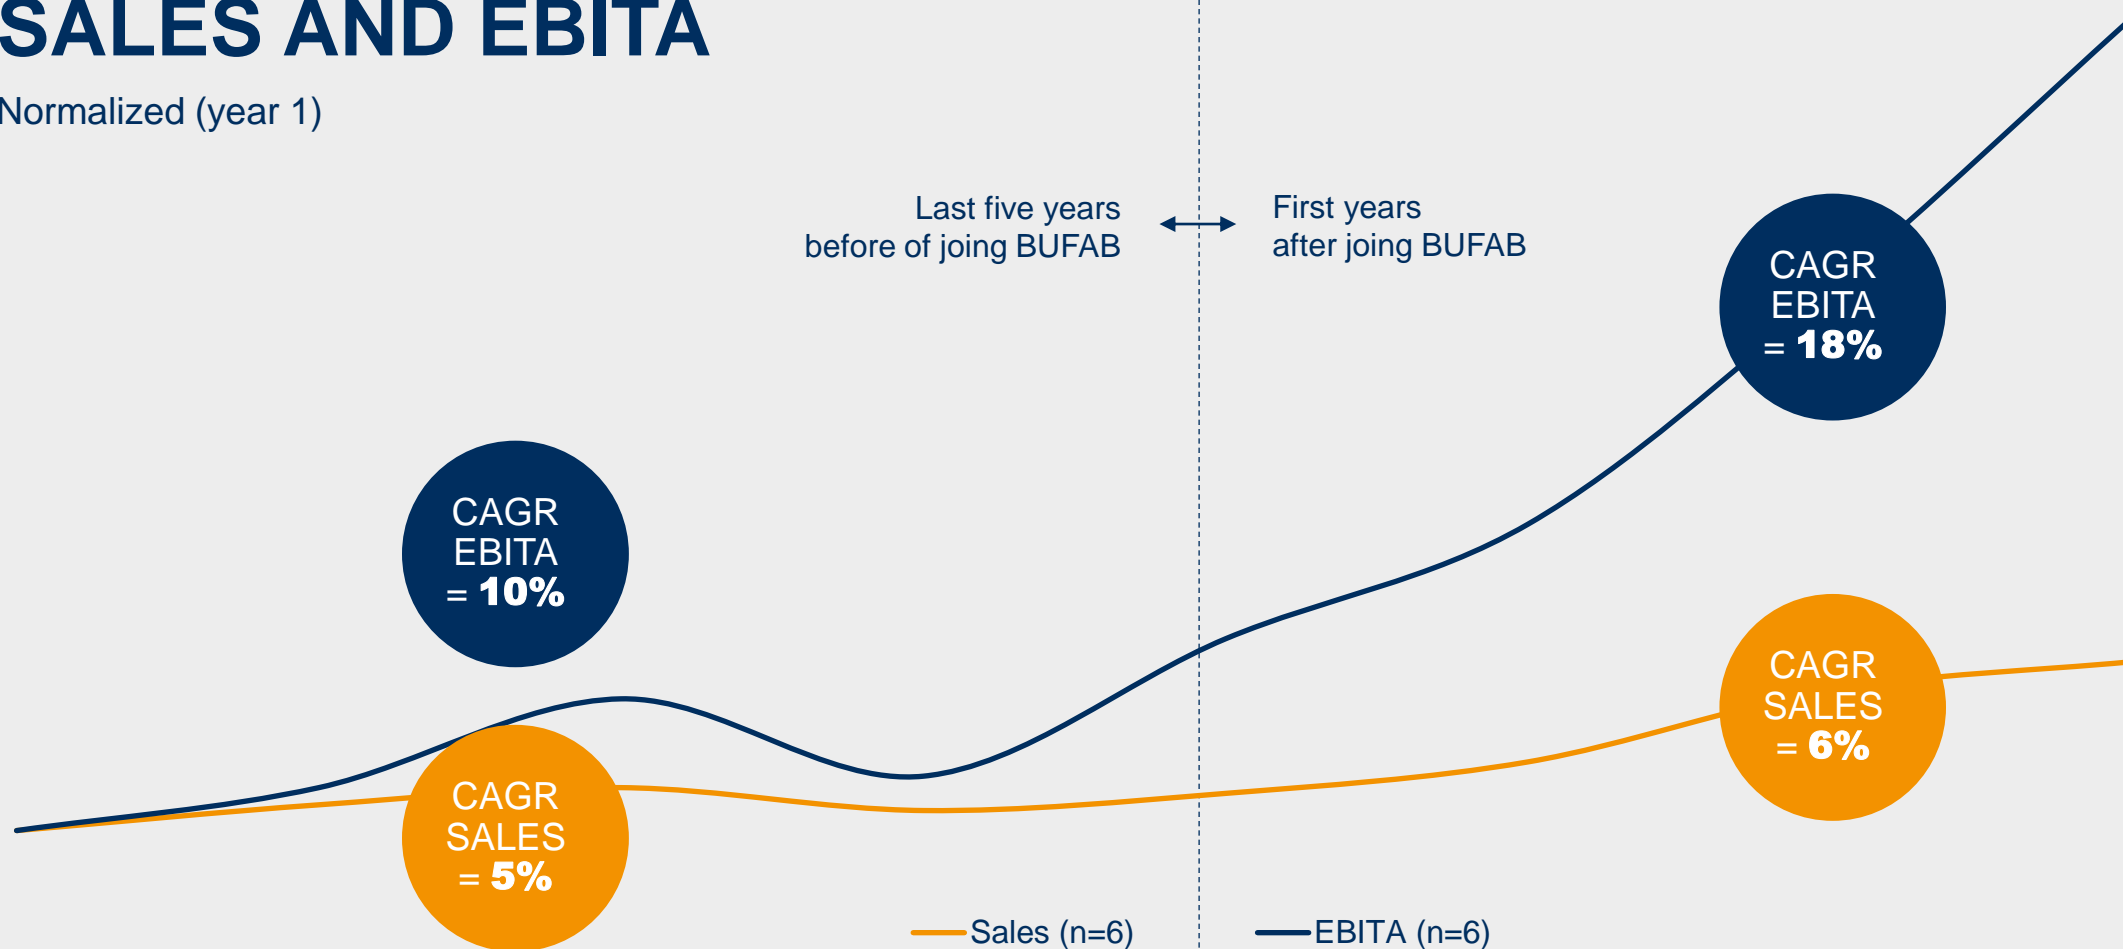

WE AVOID

- Companies that are not supply chain partners
- Companies that do not supply C Parts
- Production companies “with a smokestack”
- Avoid risky and complex countries and geographical areas

SALES AND EBITA

Normalized (year 1)

“Pull integration” is key to our success

NEVER
