

Global sourcing and project coordinator

We are looking for a Global Sourcing and Project Coordinators to our Global Strategic Account Team to support the handling for our projects from our global customers. You are experienced and result-driven and have a strong will to land the business by finding the right solution.

Main responsibilities and tasks:

- Manages quotation requests and technical questions in a team from our Strategic Accounts.
- Collaborates closely with the GAM, focusing on specific agreed targets for growth.
- Evaluates the risks related to the complexity of the products, their production process and the customer's application and translate into supplier selection requirements.
- Finds the appropriate sources from our certified panel and collaborates closely with Category Managers and Lead Buyers to find the best suitable suppliers,
- Work according to the BUFAB Best Practice.
- Hands over suitable data to the GAM for quotation purpose.
- Manages the ongoing new projects and call for cross functional team reviews when needed.
- Stands as an entry point to any customer or internal customer related technical questions.
- Responsible to make sure that the customer requirements are well understood, forwarded to the selected suppliers, and taken into account internally.
- To be in charge of the project coordination until samples are approved and business is landed. i.e., improvement projects of our supplier's collaboration, supporting the implementation of new processes and systems, and participating in the implementation projects of our ERP across the group's companies.

Your profile

- Knowledge and affinity with technology
- Long-term thinking and strategic mindset
- Very good communication and organizational skills
- Excellent and driven negotiator
- Ambition to be part of an international high engaged team with focus on growth,
- Able to read technical drawing determining most suitable production process.
- Experience in supporting multi-functional projects in an international work environment with remote locations.
- “Solutionist” with a high degree of self-management,
- Action and goal oriented
- Fluent in English

You will be working at different organizational levels in an international context, which requires very good communicative and social skills and the ability to create good relationships.

You are fluent in English, written and spoken.
